

FLED (Flat fluorescent film light source)
UFO High Bay Light

High light efficiency and more energy saving
Unique design and uniform light output

High lumen

High brightness

Low light decay

Long life

High light efficiency

Excellent
heat dissipation

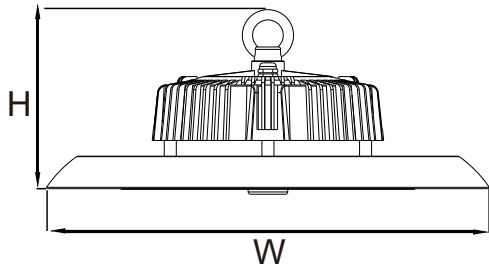

Low power
consumption

Product parameters

Name	UFO Hight Bay Light	Power	100W/150W/200W
Material	Pure aluminum	Frequency	50/60Hz
Light efficiency	150 Lm/W	CCT	2700-6500K
CRI	≥Ra75	Input	AC100-277V
IP	IP65	PF	≥0.95
Application places	Industrial plants, logistics and warehousing, exhibition halls, indoor sports venues, shopping malls, hotel, office building...		

Dimension

100W

150W

200W

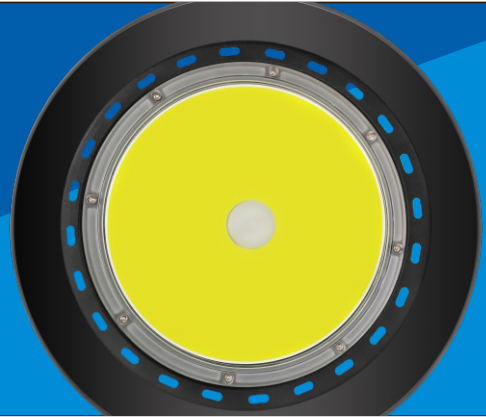

Performance improvement

Advantages

High transparency mask

High light transmittance
Waterproof and dustproof, corrosion-proof,
removable and washable

—01—

The appearance design is novel and the color can be customized

- IP65 protection level, meet all kinds of harsh working environment needs;
- Fashion simple appearance design, Appearance color can be customized, To meet different applications.

—02—

FLED (Flat fluorescent film light source)

Much more better heat dissipation than traditional LED;
Long life span water-proof and uniform light output.

—03—

Excellent heat sink

Heat insulation, separated heat sink with space insulation;
Pure aluminum structure body, ensure long life time.

—04—

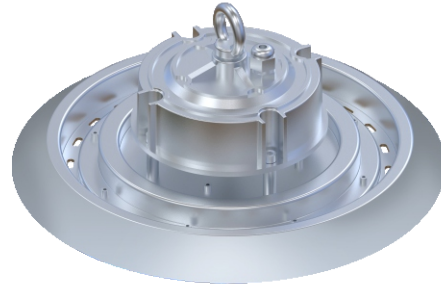

Color customized

Can be customized according to customer requirements, any color

Black

Silver

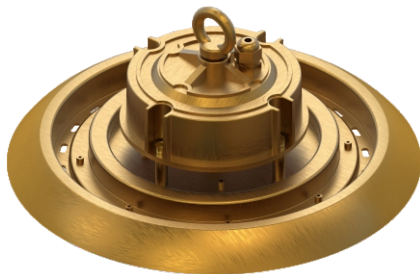

Purple

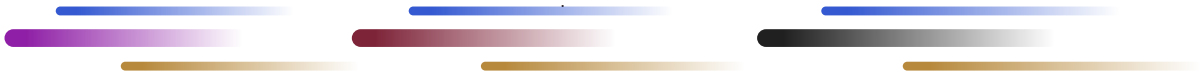

Blue

Golden

Wine Red

Application scenarios

Suitable for many large lighting places

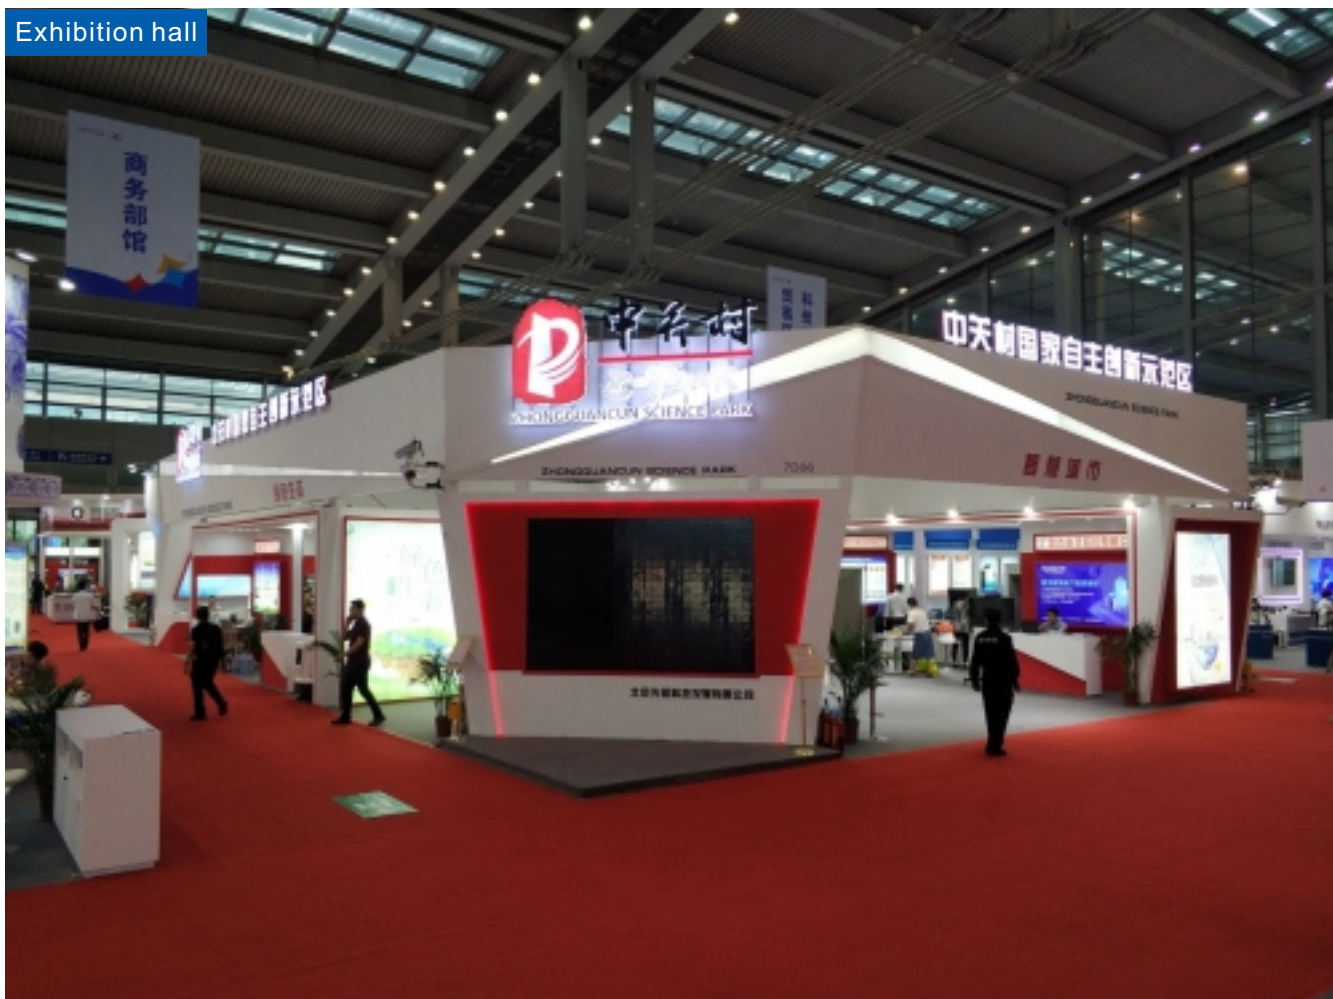

Workshop

Warehouse

Exhibition hall

Shopping mall

Stadium
